

Notes for Users

This catalogue contains the data from the vehicles, engines and equipment for the European market from year of manufacture 1969 up to the year 2016. This data has been assembled from information provided by manufacturers and importers, and taken from Bosch documentation, as well as from investigations made on vehicles. It has been compiled to the best of our knowledge and belief, and reflects the status at the date of going to print.

It is impossible to avoid deviations caused by technical changes resulting from the conditions and regulations applying in a particular country. Bosch can therefore accept no liability for the completeness and faultlessness of the data. In case of mistakes and misprints which result in damage to property or asset, Bosch is only liable for immediate damages insofar as gross breach of duty or wrongful intent apply. If personal injury is involved, Bosch is also liable in case of ordinary negligence.
